Standard

(previously Contemporary Fit)

Garment styles with this icon have a standard wearing ease and should feel comfortably loose around the chest, waist, and hip.

Athletic Fit or Fitted

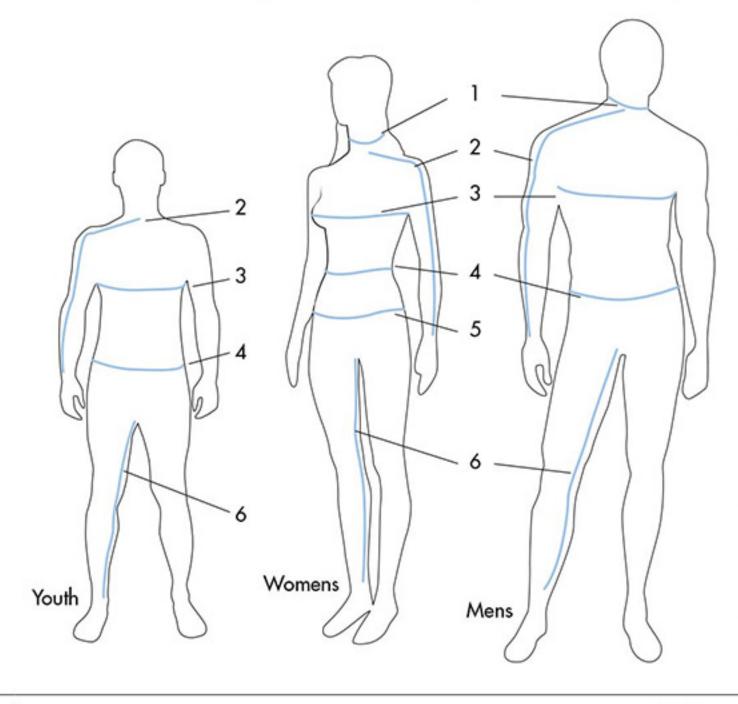

Garments with this icon are fitted to flatter the contours of your body. An Athletic Fit garment will fit closer to the body's measure and have less wearing ease. The chest, waist and hip measures are slimmer than that of our Standard fit.

Relaxed

Garment styles with this icon have increased wearing ease and are roomier than our Standard fit. A Relaxed Fit garment will usually have a drop shoulder, a larger armhole and a more boxy shape. A Relaxed fit does not follow the contours of the body and is made for comfort.

Please use these size charts to determine the appropriate Zorrel garment size to order for all fits offered.

			Men's				
Zorrel Size	XS	S	М	L	XL	2XL	3XL

1. Neck

Measure neck circumference where the standard button type collar might be fastened.

2. Sleeve Length

Measure the distance from the prominent bone at center back neck, across the shoulder, over the bent elbow to the center of the wrist bone.

3. Bust/Chest

Measure the Chest circumference at the fullest point keeping the tape horizontal around the body.

4. Waist

Measure the waist circumference at the smallest part of the waist, often at or above the belly button, keeping the tape horizontal around the body.

5. Hip

Measure the hip circumference at the fullest part of the seat, keeping the tape horizontal around the body.

6. Inseam to Floor

Measure the distance from the groin point to the floor.

Snag and Pill Test Ratings

Look for the ratings to each of our fabrics.

ASTM D5362

Standard Test Method for Snagging Resistance of Fabrics, resulting in a rating of 1 to 5, 1 being poor & 5 being excellent

ASTM D4970

Standard Test Method for Pilling Resistance and Other Related Surface Changes of Textile Fabrics, resulting in a rating of 1 to 5, 1 being poor & 5 being excellent
